

Western Riverside Council of Governments Public Works Committee

REVISED AGENDA

Thursday, February 8, 2024
2:00 PM

Western Riverside Council of Governments
3390 University Avenue, Suite 200
Riverside, CA 92501

Due to the current State of Emergency declaration issued by the Governor, this meeting will be held completely via Zoom.

[Public Zoom Link](#)

Meeting ID: 898 5444 6476

Passcode: 391456

Dial in: 669 444 9171 U.S.

Due to the State of Emergency resulting from the February 2024 storm, which is expected to continue for several days threatening life and safety, public and private property and structures, and other critical infrastructure, issued by the Governor, WRCOG will be holding the February 8, 2024, Committee meeting via video and teleconferencing and allows for members of the public to observe and address the meeting via video and/or telephonically.

In compliance with the Americans with Disabilities Act and Government Code Section 54954.2, if special assistance is needed to participate in the Public Works Committee meeting, please contact WRCOG at (951) 405-6702. Notification of at least 48 hours prior to meeting time will assist staff in assuring that reasonable arrangements can be made to provide accessibility at the meeting. In compliance with Government Code Section 54957.5, agenda materials distributed within 72 hours prior to the meeting which are public records relating to an open session agenda item will be available for inspection by members of the public prior to the meeting at 3390 University Avenue, Suite 200, Riverside, CA, 92501.

In addition to commenting at the Committee meeting, members of the public may also submit written comments before or during the meeting, prior to the close of public comment to lfelix@wrcog.us.

Any member of the public requiring a reasonable accommodation to participate in this meeting in light of this announcement shall contact Lucy Felix 72 hours prior to the meeting at (951) 405-6702 or

lfelix@wrcog.us. Later requests will be accommodated to the extent feasible.

The Committee may take any action on any item listed on the agenda, regardless of the Requested Action.

1. CALL TO ORDER (Paul Toor, Chair)

2. DECLARATION OF STATE OF EMERGENCY

A. Findings Regarding the Declaration of State of Emergency by the Governor

Requested Action(s): 1. Authorize the February 8, 2024, Public Works Committee meeting to be held virtually due to the State of Emergency declared by the Governor and find that a meeting in person would present an imminent risk to the health or safety of the attendees.

3. PLEDGE OF ALLEGIANCE

4. ROLL CALL

5. PUBLIC COMMENTS

At this time members of the public can address the Committee regarding any items within the subject matter jurisdiction of the Committee that are not separately listed on this agenda. Members of the public will have an opportunity to speak on agenda items at the time the item is called for discussion. No action may be taken on items not listed on the agenda unless authorized by law. Whenever possible, lengthy testimony should be presented to the Committee in writing and only pertinent points presented orally.

6. CONSENT CALENDAR

All items listed under the Consent Calendar are considered to be routine and may be enacted by one motion. Prior to the motion to consider any action by the Committee, any public comments on any of the Consent Items will be heard. There will be no separate action unless members of the Committee request specific items be removed from the Consent Calendar.

A. Action Minutes from the December 14, 2023, Public Works Committee Meeting

Requested Action(s): 1. Approve the Action Minutes from the December 14, 2023, Public Works Committee meeting.

7. REPORTS / DISCUSSION

Members of the public will have an opportunity to speak on agenda items at the time the item is called for discussion.

A. SoCalGas Regional Energy Pathways Program

Requested Action(s): 1. Receive and file.

B. Access to StreetLight Data Platform

Requested Action(s): 1. Receive and file.

C. TUMF Nexus Study Activities Update

Requested Action(s): 1. Receive and file.

8. REPORT FROM THE DEPUTY EXECUTIVE DIRECTOR

Chris Gray

9. ITEMS FOR FUTURE AGENDAS

Members are invited to suggest additional items to be brought forward for discussion at future Committee meetings.

10. GENERAL ANNOUNCEMENTS

Members are invited to announce items / activities which may be of general interest to the Committee.

11. NEXT MEETING

The next Public Works Committee meeting is scheduled for Thursday, April 11, 2024, at 2:00 p.m., in WRCOG's office at 3390 University Avenue, Suite 200, Riverside.

12. ADJOURNMENT

Western Riverside Council of Governments Public Works Committee

Staff Report

Subject: Findings Regarding the Declaration of State of Emergency by the Governor
Contact: Chris Gray, Deputy Executive Director, cgray@wrcog.us, (951) 405-6710
Date: February 8, 2024

Recommended Action(s):

1. Authorize the February 8, 2024, Public Works Committee meeting to be held virtually due to the State of Emergency declared by the Governor and find that a meeting in person would present an imminent risk to the health or safety of the attendees.
-

Summary:

The Governor proclaimed a State of Emergency on February 4, 2024, regarding the February storms. As a result of the emergency declaration, a meeting in person would present an imminent risk to the health or safety of the attendees and therefore this body elects to hold the meeting virtually.

Purpose / WRCOG 2022-2027 Strategic Plan Goal:

The purpose of this item is to allow a virtual meeting for the February 8, 2024, Public Works Committee meeting. This item aligns with WRCOG's 2022-2027 Strategic Plan Goal #4 (Communicate proactively about the role and activities of the Council of Governments).

Discussion:

Background

After speaking with many of our members, it's clear that several of our jurisdictions are fully engaged in addressing weather impacts. The decision to hold this meeting remotely is based on the safety of members and the avoidance of a situation where public officials are telling people to stay off the roads, yet traveling to a WRCOG meeting.

Prior Action(s):

None.

Financial Summary:

This item is for informational purposes only; therefore, there is no fiscal impact.

Attachment(s):

None.

Public Works Committee

Action Minutes

1. CALL TO ORDER

The meeting of the WRCOG Public Works Committee was called to order by Chair Paul Toor at 2:01 p.m. on December 14, 2023, in the WRCOG office, 3390 University Avenue, Citrus Conference Room, Riverside.

2. PLEDGE OF ALLEGIANCE

Chair Toor led the Committee members and guests in the Pledge of Allegiance.

3. ROLL CALL

- City of Beaumont - Robert Vestal
- City of Calimesa - Michael Thornton
- City of Canyon Lake - Stuart McKibbin
- City of Hemet - Noah Rau
- City of Jurupa Valley - Paul Toor (Chair)
- City of Lake Elsinore - Yu Tagai
- City of Menifee - Nick Fidler*
- City of Moreno Valley - Melissa Walker*
- City of Murrieta - Bob Moehling
- City of Perris - John Pourkazemi
- City of Riverside - Gil Hernandez
- City of San Jacinto - Stuart McKibbin
- City of Temecula - Patrick Thomas
- City of Wildomar - Jason Farag
- County of Riverside - Alvin Medina
- March Joint Powers Authority (JPA) - Lauren Sotelo
- Riverside County Transportation Commission (RCTC) - Jillian Guizado
- Riverside Transit Agency (RTA) - Mauricio Alvarez

*Arrived after Roll Call

Absent:

- City of Banning
- City of Corona
- City of Eastvale
- City of Norco

4. PUBLIC COMMENTS

There were no public comments.

5. CONSENT CALENDAR

RESULT:	APPROVED AS RECOMMENDED
MOVER:	Calimesa
SECONDER:	Murrieta
AYES:	Beaumont, Calimesa, Hemet, Jurupa Valley, Lake Elsinore, Menifee, Moreno Valley, Murrieta, Perris, Riverside, San Jacinto, Wildomar, County of Riverside, March JPA, RCTC, RTA
NO RESPONSE:	Canyon Lake, Temecula

A. Action Minutes from the October 12, 2023, Public Works Committee Meeting

Action:

1. Approve the action minutes from the October 12, 2023, Public Works Committee meeting.

6. REPORTS / DISCUSSION

A. High-Cube Warehouse Trip Generation Study

Action:

1. Received and filed.

B. TUMF Nexus Study Activities Update

Action:

1. Received and filed.

C. Climate Pollution Reduction Grants Funding Opportunity

Action:

1. Received and filed.

7. REPORT FROM THE DEPUTY EXECUTIVE DIRECTOR

Chris Gray, Deputy Executive Director, reported that WRCOG is working to streamline and expedite various processes, such as TUMF Reimbursement Agreements, by using DocuSign. Mr. Gray asked the Committee to coordinate with their corresponding agency representatives to expedite the process on their end as well. Mr. Gray also welcomed new Committee member John Pourkazemi, representing the City of Perris, and thanked the Committee for notifying WRCOG staff of any organizational changes.

8. ITEMS FOR FUTURE AGENDAS

There were no requests for items for future agendas.

9. GENERAL ANNOUNCEMENTS

Lucy Felix, WRCOG Program Specialist, stated that meeting invites for the 2024 calendar year will be sent out next week and asked Committee members to send any changes to a representative or alternates so that she may update the distribution lists and roll call sheets.

Committee member Alvin Medina announced that Patti Romo will be the new representative for RCTC.

10. NEXT MEETING

The next Public Works Committee meeting is scheduled for Thursday, February 8, 2024, at 2:00 p.m., in WRCOG's office.

11. ADJOURNMENT

The meeting was adjourned at 3:23 p.m.

Western Riverside Council of Governments Public Works Committee

Staff Report

Subject: SoCalGas Regional Energy Pathways Program
Contact: Daniel Soltero, Program Manager, dsoltero@wrcog.us, (951) 405-6738
Date: February 8, 2024

Recommended Action(s):

1. Receive and file.

Summary:

The Southern California Gas Company (SoCalGas) continues to support public sector customers that previously participated in Local Government Partnerships through its Regional Energy Pathways (REP) Program, one of several new offerings for public sector customers focused on connecting customers with the various energy efficiency programs offered by SoCalGas. One aspect of the REP Program is that SoCalGas contracts with regional agencies, known as REP Ambassadors, who will serve as an extension of staff to SoCalGas' REP team, ensuring public sector customers have a local "go-to" resource that supports their agencies' ability to increase energy efficiency. As the REP Ambassador for Riverside and San Bernardino Counties, WRCOG has been hired by SoCalGas to create awareness of SoCalGas' energy efficiency programs, assist government agencies and K-12 schools with developing and implementing gas energy efficiency projects through SoCalGas' programs, and promote long term energy efficiency practices.

Purpose / WRCOG 2022-2027 Strategic Plan Goal:

The purpose of this item is to provide information on SoCalGas' REP Program, which provides natural gas energy efficiency project support in Riverside and San Bernardino Counties. As a SoCalGas vendor, WRCOG would assist with connecting government agencies, special districts, and K-12 schools with SoCalGas energy efficiency gas programs to promote and incentivize projects.

This item is aligned with WRCOG's 2022-2027 Strategic Plan Goal #6 (To develop and implement programs that support resilience for our region) and Goal #6.1 (Incentivize Programs for saving electricity, water and other essential resources through the Inland Regional Energy Network).

Discussion:

Background

SoCalGas continues to support public sector customers that previously participated in Local Government

Partnerships through the REP Program. The REP Program is aligned with SoCalGas' Public Sector Vision, which is to incorporate energy efficiency (EE) into public sector customers' policies and practices to capture all EE opportunities at facilities, while bringing awareness to their constituents of energy efficiency incentives and customer-assistance programs, thereby enabling a pathway to zero net energy.

Launched in 2022, the REP Program replaced SoCalGas' previous Local Government Partnership Programs. Prior to being sunset, the Western Riverside Energy Partnership (WREP) was one of the Local Government Partnerships for Riverside County, which was jointly operated by WRCOG, Southern California Edison (SCE), and SoCalGas. Whereas SoCalGas previously implemented 12 Local Government Partnership Programs, the new REP Program will reach public sector customers through four consolidated regions: Inland Empire Region (covering Imperial County, Riverside County, and San Bernardino County), Los Angeles County Region, Northern Region (covering Central Coast region, San Joaquin Valley region, and North Los Angeles County region), and the Orange County Region.

Present Situation

In November 2023, SoCalGas hired WRCOG to support the REP Program as a Regional Ambassador for the Inland Empire region, specifically in Riverside and San Bernardino Counties. As the REP Ambassador, WRCOG serves as an extension of staff to SoCalGas' REP team, ensuring public sector customers have a local "go-to" resource that supports their agencies' ability to increase natural gas EE projects.

Public sector customers that are eligible to participate in and receive EE benefits from SoCalGas' REP Program include cities, counties, Special Districts (Fire, Police, Transportation, etc.), correctional facilities, hospitals, state agencies & departments, the military, federal agencies & hospitals, Native American Tribes, and K-12 schools.

SoCalGas operates several energy efficiency programs, including:

- Statewide programs such as the Midstream Water Heater Program, which are directed to State of California agencies, UCR / CSU Universities, and water / wastewater pumping agencies.
- Local large and small-medium programs such as the Public Direct Install Program, which provides public facilities, local and federal government buildings, and K-12 educational facilities no-cost measures and co-pay advanced energy efficiency measures.
- The REP Program.

The REP Program will support public sector customers with:

- Custom incentives & deemed rebate programs.
- Third-party energy efficiency programs.
- Filling gaps in statewide programs.
- Energy solutions and targeted regional strategies.
- Collaboration with local organizations, industry-specific associations, and other agencies.
- REP Ambassadors.

The REP Ambassadors are regional partners that will serve as the local "go to" resource for public sector customers by:

- Creating awareness of SoCalGas' energy efficiency resource programs.
- Creating awareness and support energy efficiency projects, especially in disadvantaged communities and among hard to reach and low-income customers.
- Supporting energy efficiency projects by serving as a facilitator, lead generator, and influencer in support of helping the customer get approval for the energy efficiency investment.
- Supporting energy efficiency projects of public sector customers by assisting or facilitating their incentive applications.
- Providing technical assistance that supports long-term planning that encourages policy, strategy, and behavioral change that leads to permanent EE practices, such as greenhouse gas (GHG) inventorying, customer education, energy benchmarking, and grant writing.
- Serving as an extension of the SoCalGas REP Program Team in support of public sector customers.

As a REP Ambassador for the Inland Empire region, WRCOG would support public sector customers in Riverside and San Bernardino Counties with energy efficiency gas projects and the scope of work described in Attachment 1 of this Staff Report.

WRCOG's scope of work includes marketing and outreach to create awareness of SoCalGas' EE resource programs and to create awareness of EE projects, especially in disadvantaged communities. WRCOG staff would support public sector customers with gas EE projects by meeting with facility managers, reviewing energy data, and identifying potential EE gas projects. Additionally, WRCOG would provide technical assistance such as facilitating incentive applications, assisting with GHG inventorying and energy benchmarking, and coordinating customer education.

Additionally, the REP Program's benefits could be used in conjunction with the Inland Regional Energy Network (I-REN), as I-REN cannot duplicate existing EE programs. As such, the REP Program's benefits would be complementary to the services provided to public sector customers by I-REN. In summary, I-REN's services could potentially be paired with the services provided by the REP Program to provide a complete package of electric and natural gas energy efficiency measures and benefits, as long as they are not duplicative.

Over the next month WRCOG staff will be contacting Public Works Committee members, as well as city and county staff, to schedule introductory meetings to discuss data requests to SoCalGas, discuss energy efficiency goals, and potential natural gas EE projects that could be implemented by member agencies.

Prior Action(s):

November 6, 2023: The Executive Committee 1) approved a Standard Services Agreement with Southern California Gas Company for WRCOG to serve as the Regional Energy Pathways Ambassador in Riverside and San Bernardino Counties, and 2) authorized the Executive Director to execute the Standard Services Agreement with Southern California Gas Company for WRCOG to serve as the Regional Energy Pathways Program Ambassador in Riverside and San Bernardino Counties.

Financial Summary:

Activities related to the SoCalGas Regional Energy Pathways Program are included in the Fiscal Year 2023/2024 budget under the General Fund (110).

Attachment(s):

Attachment 1 - WRCOG Scope of Services as Regional Energy Pathways Program Ambassador

Attachment

WRCOG Scope of Services as
Regional Energy Pathways
Program Ambassador

SCHEDULE B
Scope of Services

The Western Riverside Council of Governments (WRCOG) is pleased to submit this proposal to the Southern California Gas Company's (SoCalGas) 2023-24 Regional Energy Pathways Ambassador Program for Riverside and San Bernardino Counties in the Inland Empire region. As a regional government agency, the purpose of WRCOG is to unify Western Riverside County so that it can address important issues that transcend political and jurisdictional boundaries, including energy and environment. Representatives from 18 cities, the Riverside County Board of Supervisors, and the Eastern and Western Municipal Water Districts have seats on the WRCOG Executive Committee which sets policy for the organization, and the Riverside County Superintendent of Schools is an ex-officio member. This governing platform enables WRCOG to have a broad reach for engagement, program development and implementation across a multitude of public agencies.

Guided by its Strategic Plan, WRCOG's goals include developing and implementing programs that support resilience, and developing projects and programs that improve infrastructure and sustainable development in its subregion. Since 2014, WRCOG developed the Regional Streetlight Program to assist 11 public agencies purchase streetlights from Southern California Edison, complete a LED retrofit project, and currently provides maintenance services. Additionally, WRCOG has a variety of energy efficiency and environmental programs including the Property Assessed Clean Energy (PACE) Program, Western Riverside Energy Partnership (WREP), and Used Oil Recycling Program.

Since 2018, WRCOG, the Coachella Valley Association of Governments and San Bernardino Council of Governments, developed the Inland Regional Energy Network (I-REN) to address the CPUC's goals concerning Energy Efficiency (EE) Rolling Portfolios, Policies, Programs, Evaluation, and Related Issues in Riverside and San Bernardino Counties. As the I-REN ramps up in 2023, outreach and engagement opportunities are starting as it seeks to conduct Orientation meetings with Public Sector customers in Riverside and San Bernardino Counties. The I-REN orientation meetings will provide a great opportunity for WRCOG to conduct outreach and engagement for the Regional Energy Pathways Program.

With over 30 years in developing and implementing programs, WRCOG is a qualified partner for the Regional Energy Pathways Ambassador Program – Inland Empire Region. WRCOG's broad outreach with public agencies, its history for developing and implementing programs, and current programmatic framework will catalyze the Regional Energy Pathways Program.

We sincerely appreciate the opportunity to apply to the Regional Energy Pathways Ambassador Program and for your time to review our proposal. For any correspondence regarding this proposal please feel free to contact me at 951-405-6738 or Dsoltero@wrcog.us.

Sincerely,

Daniel Soltero
Program Manager
Western Riverside Council of Governments
3390 University Ave, Suite 200
Riverside, CA 92501

Public Sector Region:

Indicate which region you propose to serve as Ambassador through this proposal. If you are submitting other proposals for Ambassadors in other regions, please describe. Check one only:

Inland Region (covering Riverside County and San Bernardino County) *

Orange County Region

Los Angeles County Region

Northern Region

- Central Coast Regional Energy Efficiency (covering San Luis Obispo County, Santa Barbara County and Ventura County)
- San Joaquin Valley & North LA County (covering Fresno County, Kern County and Kings County)

*WRCOG is submitting this proposal to serve as the Regional Energy Pathways Ambassador for Riverside and San Bernardino Counties and excludes Imperial County.

Approach to the Scope of Work

Public Sector Customer: Local Governments

Local governments in the region: There are over 50 local government agencies across Riverside and San Bernardino Counties, including 2 Counties and 52 Cities.

Contacts in Local Government: The following are only a few of WRCOG's Local Government contacts: **City of Corona:** Councilmember, City Manager, City Engineer, Associate Engineer; **City of Lake Elsinore:** Councilmember, City Manager, City Engineer, City Planner, Public Works Manager, PW Lead Worker/Superintendent; **City of Moreno Valley:** Councilmember, City Manager, City Engineer, Electric Utility Division Manager, Sr. Management Analyst.

The approach to the scope of work will focus on marketing and outreach, with a focus on DACs, and close coordination with customers to raise awareness of SoCalGas' EE resource programs. As the Inland Regional Energy Network (I-REN) ramps up, WRCOG will utilize the I-REN's outreach and engagement activities in Riverside and San Bernardino Counties to identify Public Sector customers. WRCOG's marketing, outreach, and engagement plan will identify how the information will be dispersed with customers, which includes flyers and fact sheets, social media marketing, setting up introductory meetings, and hosting quarterly or as-needed virtual or in-person meetings to inform of EE programs and offerings.

To create awareness and support EE projects, especially in DACs and hard-to-reach customers, WRCOG will coordinate with the Customer and review Climate Action Plans and any related documents that guide the customer's EE goals and objectives. WRCOG will coordinate with the customer to review gas usage and conduct interviews to identify potential projects. As part of this process WRCOG will also identify any project funding sources, incentives or rebates applicable to the project, and assist the customer with securing those funds.

Furthermore, WRCOG will provide non-resource EE non-resource technical assistance (TA) that supports long-term EE strategies and planning within the public sector's organization, including GHG inventorying, customer education, energy benchmarking, and grant writing. GHG inventorying and energy benchmarking can be completed utilizing available tools from the US EPA and DOE. Customer education can be provided by sharing educational and seminar events, events from SoCalGas', and industry-specific organizations. Additionally, grant writing support can be provided by reviewing the grant and providing an initial findings summary to the customer, as well as coordinate with the customer to gather data, prepare and apply.

In fulfilling the duties of the scope of work and taking a collaborative approach with SoCalGas, WRCOG staff will serve as an extension of the SoCalGas Regional Energy Pathways Program Team in support of public sector customers. This can be achieved by having dedicated staff to serve as the Regional Energy Pathways Ambassador in Riverside and San Bernardino Counties, participate and facilitate meetings, prepare reports, as well as keeping close contact and coordination with the SoCalGas Regional Energy Pathways team.

Public Sector Customer: K-12 Schools

K-12 Schools in the region: In Riverside County there are 23 school districts with 500 schools, and San Bernardino County has 33 school districts with 522 schools.

Contacts within the region's K-12 Schools: **Riverside County Office of Education:** Superintendent of Schools, Director of Community Engagement and Partnerships; **Riverside USD:** Assistant Director, **Perris Elementary School District:** Director of Facilities, Maintenance, and Operations; **Hemet USD:** Director of Facilities.

WRCOG's approach to delivering the scope of work for K-12 schools will focus on marketing, outreach, and engagement. To raise awareness of SoCalGas' EE resource programs, WRCOG intends to coordinate with the County Superintendent of Schools and their individual Community Engagement and Partnerships divisions for

Riverside and San Bernardino Counties. This top-down approach of starting with the Superintendent's Office, then moving down to school districts, and ending with individual schools will allow for streamlined outreach.

WRCOG will develop tailored marketing materials and engagement opportunities for K-12 schools' customers in the Inland Empire region. This approach will assist with creating awareness of SoCalGas' EE resource programs and create awareness of and support EE projects. WRCOG will designate additional resources for K-12 schools located in DACs, rural, and/or hard-to-reach communities, such as meetings to discuss customer EE goals and discuss potential projects. As it supports projects, WRCOG will ensure that any potential projects are also screened for eligibility for rebates and incentives. WRCOG will assist the customer with the rebate or incentive applications, including gathering all necessary project and customer data, and documentation to apply.

WRCOG will provide customer education, and support customers with GHG inventorying, energy benchmarking, and grant writing to support long-term EE strategies and planning with K-12 schools. WRCOG can utilize engagement activities to inventory the climate action plans that have been prepared by individual schools or school districts to identify potential EE projects. For customers that don't have existing plans or strategies in place, or are preparing to update outdated plans, WRCOG assist these customers with additional resources and staff time for to help facilitate the process.

By providing these services, WRCOG will be serving as an extension of the SoCalGas Regional Energy Pathways Program Team in support of public sector customers. WRCOG can participate in meetings, provide presentations to customers, assist with reporting, and assist with outreach and engagement activities by the Regional Energy Pathways Program Team.

Public Sector Customer: Federal Government

Federal Governments in the region: WRCOG has identified 15 Native American Tribes; 6 Military installations; 3 Federal Hospitals, and numerous Federal Agencies across Riverside and San Bernardino Counties.

Contacts in the region's Federal government: **Cybersecurity and Infrastructure Security Agency:** Protective Security Advisor.

The WRCOG's approach for Federal Government customers in the Inland Empire will rely on marketing, outreach, and engagement. While WRCOG's focus has been with local government agencies, it's 2022-2027 Strategic Plan establishes a goal to serve as a champion at the regional, state, and federal level for the Western Riverside subregion. Through this effort, WRCOG will engage any existing and new contacts from Federal Government customers that are in the Inland Empire region to create awareness of SoCalGas' EE resource programs. WRCOG will create a tailored approach for customer subtypes, including email and flyer campaigns, as well as setting up introductory meetings with relevant staff and management.

WRCOG will create awareness and support EE projects, especially in DACs or hard to reach customers, by discussing existing EE goals, review facilities, and identify potential projects. WRCOG will allocate resources such as staff time for marketing, outreach, engagement activities, identifying potential projects, securing project funding sources, and assisting with securing incentives or rebates upon project completion.

To support long-term EE planning and strategies, WRCOG will provide customers with GHG inventorying, customer education, and energy benchmarking of existing buildings and operations. WRCOG's approach will start with inventorying existing climate adaption plans or related strategies that the customers may have in place. Any customers that don't have a CAP or similar strategy in place, or are currently updating an outdated plan, will be primary contacts for non-resource EE non-resource technical assistance.

Overall, WRCOG will provide these services to customers and serve as an extension of the SoCalGas Regional Energy Pathways team. This will come in the form of participating and supporting meetings, assisting and/or preparing reports, giving presentations, and facilitating consultations with customers.

Public Sector Customer: Special Districts

Special Districts in the region: WCOG has identified 119 special districts in Riverside and San Bernardino Counties, including conservation districts, community services districts, cemetery districts, utilities districts, library districts, water districts, and vector control districts.

Contacts at Special Districts in the region: **EMWD:** Board member, General Manager; **WMWD:** Board member, General Manager; **Jurupa Community Services District:** Director of Finance & Admin., Financial Analyst, Management Analyst; **CAL FIRE / Riverside County Fire Department:** Fire Facilities Manager.

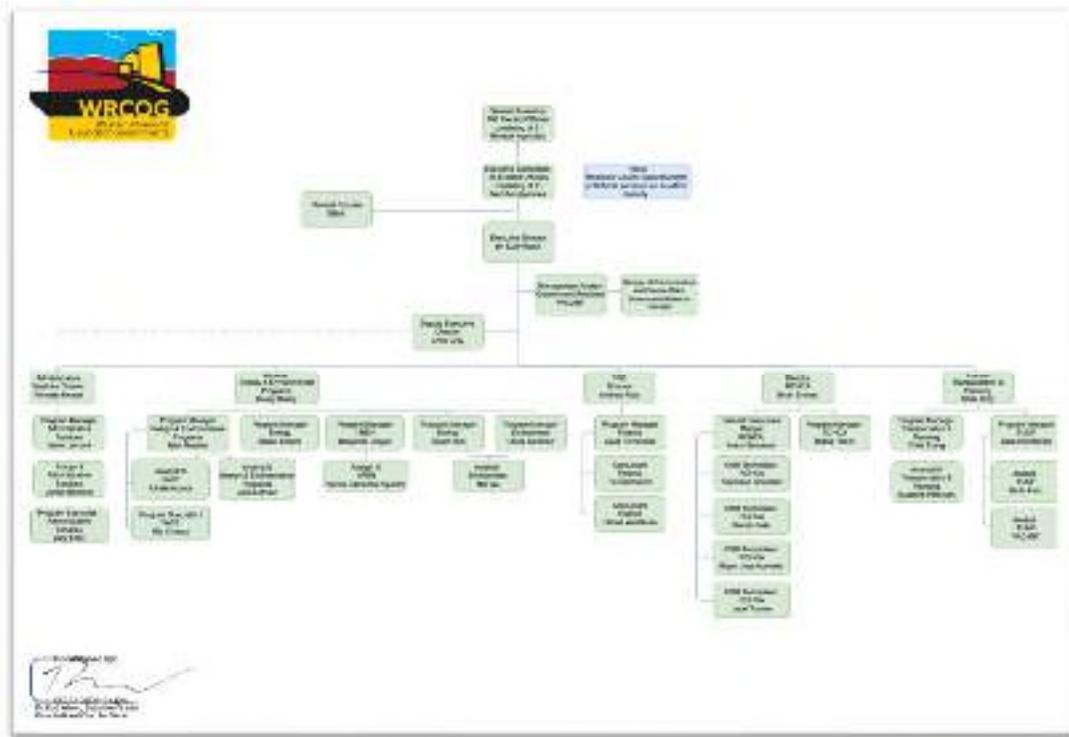

The approach to the scope of work for Special Districts will follow similar strategies as the Local Governments. A marketing, outreach, and engagement plan will be identified that will be suited for the various customer subtypes such as Police and Fire organizations, Transportation agencies, and Joint Powers Authorities to create awareness of SoCalGas' EE resource programs.

WRCOG will setup meetings with customers to identify existing EE plans or strategies, create awareness of and identify areas for potential EE projects. Any potential EE projects will receive WRCOG's support throughout the process, from securing an investment for the project through to completion of the project and submitting any available rebate or incentive applications.

In order to support long term EE strategies and planning within Special District customers, WRCOG will provide non-resource EE non-resource technical assistance, with a focus on DACs and hard-to-reach communities. Any customers that do not have an existing EE strategy or plan will be a primary focus for the technical assistance services, including customer education, GHG inventorying and energy benchmarking for existing buildings, and support with grant writing.

Throughout the process of providing services, WRCOG will serve as an extension of the SoCalGas Regional Energy Pathways Program Team in support of public sector customers. It is recognized that some Special District customers may be served by Statewide Programs, however, WRCOG can fill gaps in those programs. WRCOG will be prepared to participate in meetings with SoCalGas, provide support during consultations with customers, prepare reports, and conduct presentations.

Staffing

Key Staff:

Daniel Soltero, Program Manager: Daniel Soltero joined WRCOG in 2018 and is responsible for planning and implementation of energy, smart city, and broadband initiatives for WRCOG’s member agencies. He implemented the Regional Streetlight Program, which facilitated the sale of over 50,000 utility-owned streetlights to 11 local governments, completed a streetlight LED conversion and currently manages a regional maintenance services contract for participating agencies. Daniel also leads the development and implementation of the Energy Resilience Plan, which serves as a resource for identifying and prioritizing local government critical facilities, and designing for energy resilience solutions in response to power interruptions. He holds a B.A. in Public Policy from the University of California, Riverside, and has interests in energy efficiency, DER’s, the nexus between energy and grid infrastructure with the environment, as well as climate adaptation planning.

Casey Dailey, Director of Energy & Environmental Programs: Casey Dailey serves as Director of Energy and Environmental Programs for the Western Riverside Council of Governments. In this capacity, he oversees a number of regional and statewide programs that serve the public sector, residential and business communities to reduce energy consumption, greenhouse gases and landfill waste, as well as to increase the use of alternative fueled vehicles and spark economic development through sustainable initiatives. Casey oversees a statewide Commercial Property Assessed Clean Energy (C-PACE) Program that provides competitive financing for energy efficient, renewable energy, water conservation and seismic improvements to businesses. Other programs that Casey is responsible for include: Inland Regional Energy Network (I-REN), Regional Streetlights Program, Energy Resiliency, Solid Waste & Used Motor Oil Programs and the Clean Cities Coalition.

Western Riverside Council of Governments Public Works Committee

Staff Report

Subject: Access to StreetLight Data Platform
Contact: Diwu Zhou, PE, RSP1, Associate, Fehr & Peers, D.Zhou@fehrandpeers.com, (562) 549-3021
Date: February 8, 2024

Recommended Action(s):

1. Receive and file.

Summary:

The Southern California Association of Government (SCAG) purchased a regional subscription to access connected vehicle data via StreetLight Data. SCAG's StreetLight Data subscription can be accessed for free by any member agency or any consultant working on projects with member agencies. Diwu Zhou from Fehr & Peers will provide an overview of the StreetLight Data platform.

Purpose / WRCOG 2022-2027 Strategic Plan Goal:

The purpose of this item is to provide a highlights and the benefits of the StreetLight Data platform for member agencies. This effort aligns with WRCOG's 2022-2027 Strategic Plan Goal #5 (Develop projects and programs that improve infrastructure and sustainable development in our subregion).

Discussion:

To request access to SCAG's StreetLight Data subscription complete this form: <https://www.surveymonkey.com/r/BigDataPlatform>. Contact Jisu Lee at leej@scag.ca.gov for questions related to accessing SCAG StreetLight Data accounts.

Western Riverside Council of Governments Public Works Committee

Staff Report

Subject: TUMF Nexus Study Activities Update
Contact: Chris Gray, Deputy Executive Director, cgray@wrcog.us, (951) 405-6710
Date: February 8, 2024

Recommended Action(s):

1. Receive and file.

Summary:

The TUMF Nexus Study draws a connection between the needs of the Program and the TUMF Program Fee Schedule. This Nexus Study identifies projects requiring mitigation from new development, determines what the cost of those projects will be, and what fees need to be assessed to fund these projects. Analysis through transportation modeling work has determined a list of projects eligible for mitigation. While this list of projects has been finalized, there are a limited number of outstanding issues which need to be addressed prior to finalizing the Nexus Study.

Purpose / WRCOG 2022-2027 Strategic Plan Goal:

The purpose of this item is to discuss outstanding items related to the completion of the Draft Nexus Study. This effort aligns with WRCOG's 2022-2027 Strategic Plan Goal #5 (Develop projects and programs that improve infrastructure and sustainable development in our subregion).

Discussion:

Background

At its October 4, 2021, meeting, the Executive Committee gave direction for staff to begin work on a TUMF Nexus Study update. The TUMF Nexus Study draws a connection between the needs of the Program and the TUMF Program Fee Schedule. This Nexus Study identifies projects requiring mitigation from new development, determines what the cost of those projects will be, and which fees need to be assessed to fund these projects. TUMF Nexus Study updates have occurred on a regular basis with updates done in 2005, 2009, 2011, and 2017.

The key reasons for a Nexus Study update include the following:

- It is considered a best practice to update on a regular basis
- Underlying growth forecasts have changed since the last update

- Travel behavior has changed, particularly viewed in light of COVID-19
- The project list has changed, with past projects completed and new projects identified
- Opportunity to add new project types, such as ITS infrastructure

Since the last Public Works Committee (PWC) meeting of December 14, 2023, WRCOG staff and consultants have worked to update the following items of the Nexus Study:

1. Review and confirmation of eligible Nexus Study projects
2. Project Costs updates
3. Review of obligated funding for Nexus Study projects

Present Situation

Nexus Study Project Review: Updated lists were provided at the November PWC meeting. This list showed projects that were eligible for mitigation through the TUMF Program, and to what extent that mitigation would be. Some facilities became eligible that were not eligible in the previous version of the Nexus Study, while others lost eligibility from the previous Nexus Study. The changes in eligibility are due to the revisions in land use forecasts used in the updated Riverside County Transportation Model (RIVCOM). WRCOG staff held meetings with local agency staff to address any concerns with the project list. While not all desired changes were made, WRCOG and local agency staff were able to come to an understanding of why the changes occurred, and in some cases make some adjustments where there were errors. A list of concerns received and addressed during the entire Nexus Study review period is provided in Attachment 1 to this Staff Report.

It should also be noted that any project that is currently obligated in the Transportation Improvement Program (TIP) and which the local agency has an executed Reimbursement Agreement with WRCOG will not lose eligibility, should that be shown in the new Nexus Study. These projects would be "grandfathered" into the Program, and the eligible funding established during the Nexus Study in which the reimbursement agreement was signed, will remain throughout the life of the project. For example, the SR-60 / World Logistic Center Interchange in Moreno Valley is considered ineligible in the new Nexus Study. However, the City of Moreno Valley has already established a Reimbursement Agreement on this Interchange using the previous 2017 Nexus Study. Therefore, the maximum amount of eligible funding for this project will be determined by the 2017 Nexus Study. A list of projects funded in the 2017 Nexus Study which are not eligible for funding in the updated Nexus Study is provided as Attachment 2.

Project Costs: WRCOG performed a review of the project costs involved in all eligible work for TUMF mitigation. These costs determine the overall Program cost which would in turn would determine the appropriate fee for mitigation. Consultant Michael Baker International updated the unit costs previously identified last year for possible cost increases or decreases occurring in the past year. There were some updates that included increases in cost for curb and gutter, traffic signals, and signage. The finalized summary of these cost changes are provided as Attachment 3.

Obligated Funding Review: WRCOG performed a review of all non-TUMF funding that has already been allocated to projects on the TUMF Network. Deducting these previously obligated funds establishes a true Program cost for TUMF. This funding could include federal and state funding, grants, Community Facilities Districts, or other sources. Where funding is already committed outside of TUMF, the TUMF Program would not assign this cost towards the Program. State law precludes the TUMF Program from mitigating towards a project cost which is already funded through other sources. Using this true cost to

the Program helps establish an accurate Program cost, as well as an accurate fee schedule to cover that Program cost.

Most of this funding is identified in Southern California Associated Government's Federal Transportation Improvement Program (FTIP). The FTIP includes all federally funded transportation projects in the region, as well as all regionally significant transportation projects for which approval from federal funding agencies is required, regardless of funding source. The FTIP identifies the funding sources over the next five years for these projects which includes federal, state, regional, and local funding sources. In reviewing the FTIP, funding was identified for a number of projects and are also part of the TUMF Nexus Study. Since the TUMF Nexus Study has to account for these other funding sources, the amount of available funding for each project is affected by these other funding allocations. To get accurate data, and reflect an accurate Program cost, WRCOG staff is asking for assistance in verifying some of the funding sources identified in the FTIP to check validity. The projects where WRCOG staff need assistance is provided in Attachment 4, including funding sources. WRCOG asks those agencies which oversee these projects to assist in verifying these funds.

Prior Action(s):

December 14, 2023: The Public Works Committee received and filed.

October 12, 2023: The Public Works Committee received and filed.

August 10, 2023: The Public Works Committee received and filed.

June 8, 2023: The Public Works Committee received and filed.

April 13, 2023: The Public Works Committee approved the updated TUMF Nexus Study Roadway Network.

July 11, 2022: The Executive Committee received and filed.

March 17, 2022: The Technical Advisory Committee received and filed.

March 10, 2022: The Public Works Committee received and filed.

October 4, 2021: The Executive Committee gave direction to 1) begin work on a TUMF Nexus Study update; 2) update the TUMF Administrative Plan to expand the TUMF-eligible project list to include Intelligent Transportation Systems projects; 3) work with the Riverside County Transportation Commission and Riverside Transit Agency to evaluate options to mitigate VMT impacts from new development outside of the TUMF Nexus Study update; and 4) begin work on an update of the Analysis of Development Impact Fees in Western Riverside County.

Financial Summary:

Funding for TUMF activities is included in the Fiscal Year 2023/2024 budget under the TUMF Program (1148) in the General Fund (110). 4% of all TUMF collections are allocated for administrative purposes.

Memo on Updated Unit Costs

Technical Memorandum

TO: Cameron Brown – Program Manager
cbrown@wrcog.us
Western Riverside Council of Governments
3390 University Avenue, Suite 200
Riverside, CA 92501

FROM: Jonathan Hofert, PE, TE
Transportation Program Manager
Michael Baker International 

DATE: December 19, 2023

SUBJECT: Draft TUMF Unit Cost Assumption Technical Support

Michael Baker International has compared 2021-2022 Caltrans cost data to 2022-2023 Caltrans Cost data to review the backup to the unit cost updates to the TUMF network provided in the November 2022 memo. The Caltrans cost database included districts adjacent and within Riverside County (Districts 7,8,11, and 12) from January 2022 to August 2023 to assure consistency with the previous unit cost assumption study. A comparison table was developed to review the change in average and weighted unit prices for the years 2021-2023 for items reviewed with Caltrans cost data.

It is the opinion of Michael Baker that roadway improvement items should be further evaluated if both the following two parameters are satisfied;

1. An adjustment of weighted unit cost of over 15% from the 2021-2022 to 2022-2023 time period, and;
2. If the 2022-2023 Caltrans cost data weighted unit cost is greater than the unit cost provided in the TUMF network unit cost provided in the November 2022 memo.

A summary of findings showing the roadway improvement items satisfying the two parameters above is shown in the comparison table in red by validating with locally led projects.

Additionally, memorandums documenting unit cost recommendations for structures, intelligent transportation systems (ITS), and right-of-way improvements are attached.

2021-2023 Cost Comparison Table													
Code	Roadway Item	Unit	2022 TUMF Proposed Unit Cost	Caltrans Cost Data								Change in TUMF Unit Cost and 2022-2023 Caltrans Weighted Cost	
				2021-2022		2022-2023		Change in Cost (\$)		Percent Difference (%)			
				Average Cost	Weighted Cost	Average Cost	Weighted Cost	Average Cost	Weighted Cost	Average Cost	Weighted Cost		
Earthwork													
1 -	190101	Roadway Excavation	CY	\$ 38.55	\$ 148.93	\$ 17.92	\$ 208.03	\$ 24.91	\$ 59.10	\$ 6.99	40%	39%	\$ 13.64

21 -	820850	Signage - 2 Post	EA	\$ 920.29	\$ 915.83	\$ 965.77	\$ 1,234.41	\$ 1,211.58	\$ 318.58	\$ 245.81	35%	25%	\$ (291.29)

Proposed Unit Cost Adjustments for Roadway Items

Following research of the Caltrans cost data from 1/1/2022 to 8/31/2023 and comparing it to Caltrans cost data from 1/1/2021 to 8/31/2022, it is the opinion of Michael Baker International that the roadway item unit prices shall be adjusted if both the following two parameters are satisfied;

1. An adjustment of weighted unit cost of over 15% from the 2021-2022 to 2022-2023 time period, and;
2. If the 2022-2023 Caltrans cost data weighted unit cost is greater than the unit cost provided in the TUMF network unit cost provided in the November 2022 memo.

Items satisfying the parameters listed above are shown in the comparison table in red by validating with locally led projects. The parameters above were used as a threshold for evaluation and adjustment to the proposed unit prices so as not to have an arbitrary and capricious approach to updating the roadway items unit costs. The adjustment of these roadway items unit prices are proposed to use the adjusted weighted average unit cost from Caltrans cost data. The following unit cost adjustments are proposed.

II. Section 2 Pavement Structural Section

- Curb and Gutter

As the two threshold parameters listed above were satisfied, the unit cost was reevaluated using recent Caltrans cost data for awarded contracts in Caltrans Districts adjacent and within Riverside County (Districts 7,8,11 and 12) within the period of 1/1/2022 to 8/31/2023 for item number 731504 (Minor Concrete (Curb and Gutter) – CY). Per the parameters listed above, the adjusted weighted average unit price per Tons is \$764.46. Per Caltrans Standard Plan A87A, Type A2-6 typical curb and gutter is assumed to be used which has an application value of 0.05903 Cubic Yard of Concrete per Linear Foot. The derived weighted unit price of curb and gutter is **\$65.74** and is proposed to replace the unit cost previously identified in the November 2022 memo of \$59.36 per linear foot.

V. Section 5 Traffic Items

- Traffic Signals

As the two threshold parameters listed above were satisfied, the unit cost was reevaluated using recent Caltrans cost data for awarded contracts in Caltrans Districts adjacent and within Riverside County (Districts 7,8,11 and 12) within the period of 1/1/2022 to 8/31/2023 for item number 870400 (Signal and Lighting System) – EA). Per the parameters listed above, the adjusted weighted average unit price per each is **\$531,086.24** and is proposed to replace the unit cost previously identified in the November 2022 memo of \$422.750.00 per each.

- Pavement Marker Retro-reflective

As the two threshold parameters listed above were satisfied, the unit cost was reevaluated using recent Caltrans cost data for awarded contracts in Caltrans Districts adjacent and within Riverside County (Districts 7,8,11 and 12) within the period of 1/1/2022 to 8/31/2023 for item number 810230 (Pavement Marker (Retroreflective) – EA). Per the parameters listed above, the adjusted weighted average unit price per each is **\$5.06** and is proposed to replace the unit cost previously identified in the November 2022 memo of \$3.90 per each.

- Signage – 2 Post

As the two threshold parameters listed above were satisfied, the unit cost was reevaluated using recent Caltrans cost data for awarded contracts in Caltrans Districts adjacent and within Riverside County (Districts 7,8,11 and 12) within the period of 1/1/2022 to 8/31/2023 for item number 820850 (Roadside Sign (Two Post) – EA). Per the parameters listed above, the adjusted weighted average unit price per each is **\$1,211.58** and is proposed to replace the unit cost previously identified in the November 2022 memo of \$920.29 per each.

MEMORANDUM

From: Bridge Department Management, Michael Baker International

To: TUMF Program Management, Western Riverside Council of Governments (WRCOG)

Subject: TUMF Structures Unit Cost Estimate Update

In October 2022, we provided the following unit cost estimate for bridges:

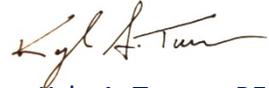

Replacement Bridge: \$400/sf

Bridge Widening: \$500/sf

We also recommended using \$90/sf for conventional concrete and masonry retaining walls, approximately 8-ft tall, built as part of land development projects.

While publicly available 2023 construction inflation data is showing an approximate 3% increase across infrastructure activities, we are not recommending an increase in unit cost estimates at this time based on inflation alone. We believe that the costs we previously provided remain fair based on inflation alone.

Respectfully,

Kyle A. Turner, PE
Bridge Department Manager

MEMORANDUM

From: ITS/Traffic Engineering, Michael Baker International

To: TUMF Program Management, Western Riverside Council of Governments (WRCOG)

Subject: TUMF (ITS) Unit Cost Estimate Update

In October 2022, we provided the following unit cost estimate for ITS improvements:

ITS Improvements: \$686,338.50/mi

While publicly available 2023 construction inflation data is showing an approximate 3% increase across infrastructure activities, we are not recommending an increase in unit cost estimates at this time. We believe that the costs we previously provided remain fair.

Respectfully,

Antonio Salas, PE (CO, WA)
ITS/Traffic Engineering Technical Manager

RIGHT-OF-WAY IMPROVEMENTS

The following table Provided by Epic represents the percent change of cost data in the real estate market from 2022 to 2023. See Appendix Q for 2023 calculations.

	2022	2023	Percent Change
Urban	\$329.71	\$412.30	25.05%
Suburban	\$229.14	\$315.08	37.51%
Rural	\$5.12	\$5.32	3.91%
